

GSY VE SEL

COMPOSITION:

Each 1000ml contains. based on oil

Vitamin E	150gm
Sodium Selenite	20gm
Zinc	50gm
Sorbitol	50gm

GSY VE SEL

COMPOSITION:

Each 1000ml contains. based on oil

Vitamin E	150gm
Sodium Selenite	20gm
Zinc	50gm
Sorbitol	50gm

Indications:

Generally used in farm animals deficient in vitamin E and Selenium.

Prevention and treatment of muscular dystrophy (White Muscle Disease, Stiff Lamb Disease) in cattle, sheep, goats and poultry, encephalomyelitis, exudative diathesis and decreased hatchability of eggs in poultry.

Action:

Vitamin E: Antioxidant, preventing or slowing down formation of free radicals and hyperoxides from polyunsaturated fatty acids.

This decrease in peroxide formation has a stabilizing effect on cell membranes containing polyunsaturated fatty acids.

Selenium: Trace element, reducing tissue peroxides and stimulating immunity response.

Interaction with Vitamin E is sometimes synergistic and sometimes partially substitutive.

Zinc:

It maintains normal growth, including development of the skeleton and feathers as well as skin and foot health, enhancing the immune system and infectious disease resistance

Sorbitol:

Chicks tended to be better in growth performance when given Sorbitol.

Dosage:

Calves, lambs: 10ml per 50kg body weight, during 5 - 10 days.

Poultry: 1 - 2 ml per 10 Liters of drinking water during 5 - 10 days.

Medicated drinking water should be used with in 24 hours.

Warning:

Keep out of the reach of children.
